

# LEAD SERVICE LINE REPLACEMENT (LSLR) & NOTIFICATION ACT

## NO PARTIAL LSLR

JANUARY 2022

With the passage of the Illinois Lead Service Line Replacement and Notification Act, **partial lead service line replacements will be prohibited beginning January 2022.**

Follow these steps when completing lead service line replacements:

**LSL** = Lead Service Line  
**LSLR** = Lead Service Line Replacement  
**CWS** = Community Water System

What is the nature of the work?

Emergency Repair

CWS shall notify affected building owners with LSLs or suspected LSLs and begin process of full LSLR

Planned water main replacement

CWS shall notify affected building owners & residents 45 days and 14 days before work begins.

Customer initiated LSLR

Building owner provides CWS with notice at least 45 days before commencing work

CWS replaces public side LSL within 30 days after completion of the private side

If building owner of affected LSL refuses access or permission to replace entire service line, CWS may proceed with partial LSLR and follow these requirements:

Notify building owner and resident(s) of the partial LSLR repair

Provide filters for at least one drinking fixture

Replace remaining portion of LSL within 30 days or 120 days in the event of weather or other circumstances beyond reasonable control. CWS must notify Department of Public Health if complete replacement cannot be made within required period.

If full LSLR cannot be completed due to denial by building owner, CWS shall have owner sign waiver developed by Department of Public Health and document the remaining LSL for the material inventory.
